Good Morning,

Regarding the development of 4 Earle Street, MAP 31A, Lot 453, this department has no objections as long as the proposed development includes a cul-de-sac or hammerhead, as outlined in Fairhaven Code. Additionally, a hydrant must be installed at the cul-de-sac or hammerhead, per Fairhaven Code and the water department's requirements.

As this development is a side street off Route 6, it is crucial to ensure there is adequate water access and the ability to turn around without backing into or laying a hose line across Route [6 \(Huttleston Ave\)](#).

Please let me know if you have any questions.

Regards,

Todd Correia
Fire Chief
