| COMMENTS                                                                                                                                                                                                                                                                                                                      |                   |              |                        |                  |           |     |
| 01. The rough opening dimensions as shown are based upon the manufacturer's printed specifications. The Builder shall verify the rough opening dimensions prior to their framing of said openings.                                                                                                                            |                   |              |                        |                  |           |     |
| 02. Rough opening dimensions shown are MINIMUM for proper installation and may need to be increased to allow for the use of building wraps, flashing, sill or pan flashings, anchoring brackets or other materials. Adjusting rough opening dimensions to accommodate these materials is the responsibility of the installer. |                   |              |                        |                  |           |     |
| 03. The Builder shall verify window locations for required safety glazing. See additional window notes contained in these drawings for required locations.                                                                                                                                                                    |                   |              |                        |                  |           |     |
| 04. No opening in an exterior wall may be moved or relocated without the written permission of the Designer due to Braced Wall Panel requirements of the Building Code.                                                                                                                                                       |                   |              |                        |                  |           |     |
| 05. SG indicates windows that shall have safety glazing, i.e., tempered safety glass or laminated glass.                                                                                                                                                                                                                      |                   |              |                        |                  |           |     |
