Questions, Comments, Concerns

Dear Select board member, I hope this letter finds you well. I am John Seed, a 9th grade student attending Fairhaven High School. There is an issue that I feel is important that I wanted to address with someone who could potentially resolve it. That issue being the the big shed type building in the corner of the Fairhaven High Football stadium. As a player of the organization, I see it every day and just think about how much of a waste of space it is having a building that big not be used to any degree.

I don't think that the building is really harming anyone in particular, but it is affecting the town the most because of how inefficient this is. This is an important issue to Fairhaven because a lot of people of this town like to show up and support the team on Friday nights, and then you just have this nice constructed building sitting there doing nothing. I'm not the only one who notices this issue as I have had family members and peers of mine say stuff about this issue also. I've also observed that many people don't want to have to use the bathroom in a disgusting port-o-potty, so maybe the town could turn that building into a nice high quality bathroom.

My recommendation for an unique issue like this would be to turn this building into a bathroom. They have a nice and well running snack shack the definitely brings in a solid amount of cash, and they have a healthy amount of bleachers so that no one has to worry about not having a spot to seat. The turf field is good and has been functioning well, and there haven't been any issues with the scoreboard. It's a really nice stadium don't get me wrong, but the current bathroom situation is not the answer. I hope this letter treats you well and have a good day.

Sincerely, John Seed
