Questions, Comments, Concerns

Dear Fairhaven Selectboard,
I would like to discuss the Roger school building as it is just sitting in the center of Fairhaven slowly rotting away. In my opinion, I think we should try and do something with the building, I live in the area and whenever am sitting near the school, i just think of what a waste it is being this historical with nothing inside. I think we could turn it into some kind of training facility for future firefighters, EMTs, and police officers. Currently, it is affecting the community by taking up the space for nothing. Thank you for taking to time to read this, I do think something should be done with the Roger school building as I do believe it can really benefit our community.

Thank You For Your Time,
Noah Mahon
